CONUS OPPORTUNITIES

Degreed Professional Positions

- Aircraft External Load Analysts
- Aircraft Stress Analysis Engineers
- Aircraft Structural Design Engineers
- P3 Aircraft Engineers
- Systems Integration Engineers
- Systems Engineers - all types
- Avionics Engineers
- Battle Management C3I/C4I
- Flight Test Engineers
- Electronic Warfare Engineers
- Industrial Security Representatives
- Instrumentation/Display Engineers
- All-Source Intelligence Analysts
- Logistics Engineers
(Brigade level experience and above)
- CONOPS/Military Operations Research Engineers
- Software Engineers
- Satellite Systems Engineers
- Technical Editors/Writers
- Cost Estimators
- Sub-Contract Negotiators
- Quality Assurance Engineers
- Special Access Program Analysts
- UAV Specialists
- Information Assurance/Cyber Security Engineers

Non-Degreed Technical Positions

- Fighter Aircraft Avionics Technicians
- Aircraft/Production Operations
- Computer Operators
- Data/Telemetry/Link-16 Systems Technicians
- Flight Test Technicians
- Electronics Warfare Technicians
- Instrumentation Technicians
- AEGIS SPY Radar Technicians
- Aircraft Sheet Metal Mechanics (airframe and power plant preferred)
- SIGINT/MASINT Signal Analysts
- Mechanical/Electrical Technicians
- IT Network Support Technicians

Vocational Positions

- Field & Service Mechanics
- Physical Security Professionals/Guards
- Administrative
- CAD Operators
- Maintenance Workers
- Construction Workers
- Drivers
- Logistics
- HVAC Mechanics

OCONUS POSITIONS

- Intelligence Analysts
- Special Operations
- Field & Service Mechanics
- Physical Security Professionals/Guards
- Administrative
- Maintenance Workers
- Construction Workers
- Logistics
- Electricians

- HVAC Mechanics
- Generator Mechanics
- Plumbers
- Facilities
- CAD Operators

Careers for Transitioning
Military Personnel

An Equal Opportunity Employer

inclusion is one of our defining strengths

Transfer your leadership, knowledge, and skills to another leading outfit.

At Lockheed Martin, we are known for integrating systems that make our nation safer. For shaping the latest technologies that redefine defense and national security. And for applying the highest ethics and visionary thinking. These are the same strengths you applied in your military career — and the very skills you will contribute as a member of our team.

We invite you to bring your future to one of the foremost systems engineering, software, and systems integration companies in the world.

A wealth of transitioning experience and resources.

When you are launching your next career from the military to the private sector, it helps to have someone in your corner who knows the way. At Lockheed Martin, we are highly experienced in military career transitioning. Over 30,000 of our current employees are former military personnel. Also consider: Specially dedicated recruiters, Military Relationship Managers who understand your needs • Our regular visits to military bases, attendance at transitioning military job fairs, and partnerships with on-base transition centers • Our participation in the Army Spouse Employment Program • PaYS (Partnership for Youth Success).

All of this is our way of demonstrating our appreciation for your military service, our support for your individual transition, and our ability to offer distinctly promising private sector careers.

A commitment to our customer:

At Lockheed Martin, “We never forget who we’re working for.” This is evident in our outreach to the military and their families through our United in Gratitude initiative. We are dedicated to supporting programs that improve the quality of our military and their families’ lives through our Lockheed Martin Employees Care/USO Operation Care Package program, by grants to organizations that provide free housing to the disabled, by donating school supplies, providing computers for spouses, and funding creative ways to enhance the wounded soldier’s recovery. We also support military relief organizations that provide financial assistance for personal emergencies, help with food, rent, utilities or transportation needs, medical and dental expenses, care for special needs family members and educational assistance.

Distinctive places to live and work.

As a global company, we offer locations throughout the United States and overseas in such countries as: Afghanistan • Germany • Iraq • Italy • Japan • Puerto Rico • Qatar • Saudi Arabia • South Korea • United Kingdom.

Many choices for your aspirations.

Lockheed Martin Aeronautics Company

Excel with today’s most brilliant minds designing, building and sustaining the world’s most sophisticated military aircraft. The challenges here redefine what is possible in advanced aircraft design, production, modification, support, stealth technology and systems integration. Your involvement may include: F-22 Raptor • F-35 Lightning II • F-16 Fighting Falcon • C-130J Super Hercules • C-5M Super Galaxy • Classified contracts for various special mission aircraft • Other key programs and challenges.

Lockheed Martin Space Systems

The challenges here encompass a broad portfolio of innovations and technologies that are laying the foundation for future space systems. Programs include: • The full range of remote sensing, navigation, meteorological and communications satellites and instruments for government, civil, and commercial applications • Classified systems for Intelligence and national programs • Ballistic missiles and missile defense systems • Complex information systems supporting critical Intelligence missions • Space observatories, interplanetary spacecraft and human space flight systems • Nanotechnology research and development

Lockheed Martin Electronic Systems

Your involvement may range from designing, building and supporting advanced sensors, decision systems and precision weapons to integrating complex manned and unmanned air, land, and sea-based platforms. Other opportunities involve: • Air and theater missile defense systems • Surface ship and submarine combat systems • Anti-submarine and undersea warfare systems • Radars, surveillance and reconnaissance systems • Simulation and training systems • Laboratory management • Naval shipbuilding • Utility scale renewable energy

Lockheed Martin customer sites include numerous other locations in addition to those noted here.

Lockheed Martin Information Systems & Global Solutions

As the leading provider of information technology to the U.S. government, Lockheed Martin Information Systems & Global Solutions (IS&GS) understands that providing the right outcomes starts with the ability to deliver the right capabilities in support of our customers’ missions. Whether it’s delivering real-time data to warfighters or providing benefits to seniors, IS&GS offers an extensive collection of IT capabilities across a broad spectrum of domains.

In order to provide the right solutions to each customer, IS&GS has aligned its organization to focus on core customer and adjacent markets which include Cyber Security, Energy and Health IT. IS&GS’s core customer product lines include Civil, Defense and Security. These businesses enable IS&GS to provide focused solutions to our customers with in-depth mission expertise, domain knowledge and ready access to IT capabilities.

As an organization driven by innovation and integrity, Lockheed Martin IS&GS is continually looking toward the future. By transforming and unifying our capabilities and remaining agile in support of our customers’ ever-changing mission needs, we strive to remain the provider of choice for our customers and the employer of choice for our diverse workforce.

A Total Value package.

There is much to be said about the Lockheed Martin Total Value package. It is specifically designed to help you realize your professional and personal best...to achieve all that you can imagine. Part of the package involves nurturing your growth through a commitment to develop top talent from within, and through access to a wide range of training programs and services.

Diversity and inclusion: What we believe...what we live.

You will thrive in an environment that welcomes, respects, and develops our individual differences as a competitive strength. It begins with our core values: Do What’s Right, Respect Others, Perform With Excellence. It extends to every activity that involves attracting and retaining a talented workforce that reflects the diversity of our customers, our suppliers, and our world. That’s the difference between stating our commitment to diversity and inclusion — and living it.
